“ I bought this for my grandsons for Christmas. We have played the game with them and found it lots of fun and educational as well. My 8 year old enjoyed asking his grandparents the questions and found it very funny when we got it wrong. The questions are for different levels. For my 5 year old we asked the easiest questions and he was able to answer most of them. I would definitely recommend this game and others in the series. ”

Signature COLLECTION

PUZZLES

Frank Lee Ruggles' mission was to make a difference with his photography.

The US-Army-Paratrooper-turned-critically-acclaimed photographer served as an Eminent Photographer for the United States National Park Service for four years, a position only held by a handful of people in the 100-year history of the NPS. The collection of his 80,000 photos for the US Park Service is the largest produced by any single Parks photographer to date. Frank's pursuit of capturing America's natural beauty and unique history with his camera took him on an epic 100,000-mile journey to over 250 Parks from coast to coast. Franks goal was to inspire others to appreciate the outdoors and protect our beautiful National Parks.

A PORTION OF THE PROCEEDS FROM THIS PUZZLE WILL BE DONATED TO SUPPORT THE NATIONAL PARK TRUST.

Essentials for pet-friendly businesses!

About Education Outdoors

When Tim Paczesny was nine years old, he dreamed of one day creating games. Years later, that dream became reality. In 2005, one of his daughters noticed an animal track on the ground. She asked her dad if he knew which animal it belonged to. Tim looked at the track and told her it was from a raccoon. "Dad, how did you learn all the things you know about nature?" his daughter asked. That question got Tim thinking:

"What can I do to teach my kids more about the Outdoors?"

Also during this time, Tim was part of a non-profit organization he founded called The League of Extraordinary Outdoorsmen. At the League's annual family fishing day, Tim realized the need to educate all children and their families about the outdoors. He realized he had stumbled upon the perfect way to fulfill his boyhood dream. Tim quickly got to work, developing 400 questions and 100 fun facts for a game that would educate people of all ages about the outdoor world he loved. A year later, his first game, **CAMP – The Game that Grows With You**, was complete, and the Education Outdoors company was born. Since then, Tim has developed the CAMP Travel Edition as well as seven additional games centered around exploring the outdoors.

Throughout the years, Education Outdoors has joined several other initiatives to protect and educate about the environment. In collaboration with **Smokey Bear**, Education Outdoors spreads the message that "Only You Can Prevent Wildfires!" and helps to do so by donating a portion of Smokey Bear Product sales. By donating proceeds from the Frank Ruggles Signature Collection Puzzles to the **National Park Trust**, Education Outdoors helps fund projects to help children get involved with our beautiful National Parks. All of our wooden products are **sustainably sourced** and our stainless steel drinkware aims to **prevent the use of single-use plastic**.

Most recently, Tim Paczesny started the **Education Outdoors Preserve non-profit**, which aims to preserve properties for recreational public use, as well as to plant trees. In fact, a tree is planted for every 4 wooden puzzles sold! In the year 2022, Education Outdoors Preserve planted nearly **400 trees**.

Today, Tim's Daughters Alicia and Autumn run Education Outdoors in Westland, Michigan, where they and their dedicated employees enjoy creating games that bring families together and products that **advocate for the environment**. Tim travels to customers while coming up with ideas for new products.
